

2021 PRODUCT SAFETY LEADERSHIP IN PRACTICE

September 23- October 5

*A Certificate Virtual Program From Saint Louis University's
Emerson Leadership Institute
In cooperation with
ADK Information Services, LLC*

The 2021 Product Safety Leadership in Practice Program will focus on leadership and success through skill building in core competencies, communications, best practice fundamentals, and peer networking. Sessions will revolve around instructor-led discussions on how real-world challenges can be met by today's product safety managers. The course is designed for product safety managers with backgrounds in risk management, product development, compliance, engineering, chemists and toxicologists, operations, product integrity, and quality assurance.

Class Topics and Instructors (all times central):

- **Company culture and how failure can lead to the path of success, Michael Shaner, PhD, Professor (emeritus), Chaifetz School of Business (Sept. 23, 9:00 a.m.)**
- **Ethics in product safety-applying sound judgement in challenging situations, James Fisher, PhD, Marketing Professor, Chaifetz School of Business (Sept. 23, 11:00 a.m.)**
- **Crisis management on a global stage, David Kosnoff, Vice President, Quality & Compliance, Hasbro (September 28, 9:00 a.m.)**
